

IMPORTANT NOTICE

Attention All NNMC Visitors

New Visitor Policy

In an effort to safeguard the health of our patients during the current widespread H1N1 influenza activity in our area, the following visiting guidelines are now in place:

- Visitors under 18 years of age are highly discouraged
- Visitors of all ages should not visit if they are ill with flu symptoms
- Visitors of wounded warriors will be screened for illness

Thank you for your help and understanding regarding our effort to protect patients and staff.
